

Accessibility Guide

Hampton Manor is a 24-bedroom estate hotel, spread across three distinct areas. Due to the historic nature of the property, access can vary in certain spaces. However, we've implemented thoughtful solutions to ensure inclusivity wherever possible.

Accessible Bedrooms

Our accessible rooms include widened doorways, grab rails, and adapted bathroom facilities:

- Main Manor House: The Ample Room is a ground-floor accessible bedroom, with an en-suite bathroom designed for wheelchair users.
- The Walled Garden Suites: Connected to our restaurant Grace & Savour, one ground-floor suite offers step-free access and full accessibility features.
- Guests staying with assistance dogs are very welcome, just make us aware at the time of booking.

Public Spaces & Event Access

- Step-free access is available to all main public event areas, including dining rooms, lounges, and wedding spaces within the Manor House.
- An accessible public toilet and baby changing facilities are available on the Manor's ground floor.
- Our team is trained to assist with a portable ramp at the historic front entrance when required.

Restaurants

- Grace & Savour has step-free access and its own accessible toilet facilities.
- Kynd also offers step-free access and use of accessible toilets located at either Grace & Savour or within the Manor House.

Parking

- Designated disabled parking spaces are located near all main entrances, ensuring convenient access to bedrooms, public areas, and restaurants.

Staff Support

Our team is on hand to offer friendly and proactive assistance with a range of accessibility needs, including:

- Use of our portable ramp system.
- Help with luggage and mobility aids.
- Orientation support for visually impaired guests.
- A shuttle service is available between the areas of the estate via our electric bus.

Booking & Additional Support

If you have specific accessibility requirements, we'd be delighted to assist. Please do contact us ahead of your visit so we can make any necessary arrangements.
